

Optimization & Licensing Assessment (OLA)

Evaluate your IT environment to reduce costs and optimize organizational resources

Assess and optimize your current on-premise and cloud environments based on actual resource utilization, licensing, and application dependencies with Anvil's Optimization and Licensing Assessment (OLA).

Anvil is partnered with Amazon Web Services (AWS) to help your company build a migration and licensing strategy on AWS, ranging from cloud adoption to cloud optimization. With this assessment, you'll be able to evaluate your cloud deployment options, and best utilize existing license entitlements. Anvil can help your organization take the best path toward cost savings by right-sizing resources on optimized AWS instances.

As one of the few global AWS Migration Consulting Partners, Anvil is your strategic business advisor to accelerate your cloud adoption journey while helping you reduce cost, increase agility, and improve security.
